Retirement Income Graph

The following graph shows a visual picture of your retirement income throughout retirement. The light blue shows your retirement income needs plus any special expenses you may have entered. If you see red, then you have a shortfall in those years. The dollar values shown in the data boxes are the values at the selected age shown at the bottom of the graph.

Retirement Savings Graph

The following graph shows a visual picture of your accumulating investment values including contributions and hypothetical growth. The three investment types are each represented by a different shade of green. The white data box shows your Total Investments at the selected age. The dollar values shown in the data boxes are the values at the selected age shown at the bottom and by the red line on the graph.
