## Retirement Income Graph

The following graph shows a visual picture of your retirement income throughout retirement. The light blue shows your retirement income needs plus any special expenses you may have entered. If you see red, then you have a shortfall in those years. The dollar values shown in the data boxes are the values at the selected age shown at the bottom of the graph.

This is a hypothetical illustration based on your assumptions and is for planning purposes only. It is not indicative of any specific product or performance. Investment values will fluctuate with changes in market conditions. Values shown reflect approximate taxes per each investment type, if applicable

## Savings Graph

The following graph shows a visual picture of your accumulating investment values including contributions and hypothetical growth. The three investment types are each represented by a different shade of green. The white data box shows your Total Investments at the selected age.

NOTE: The dollar values shown in the data boxes are the values at the selected age shown at the bottom and by the red line on the graph.

This is a hypothetical illustration based on your assumptions and is for planning purposes only. It is not indicative of any specific product or performance. Investment values will fluctuate with changes in market conditions. Values shown reflect approximate taxes per each investment type, if applicable

This estimate is based on the Secure Act effective Jan. 1 2020. For those reaching $701 / 2$ prior to 2020, the software uses the old Uniform Life Expectancy table. For those reaching 72 after 2019, the software uses the new proposed Uniform Life Expectancy Table.

## Important Notes About This Report

Please Remember: Different types of investments involve varying degrees of risk. Therefore, it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended and/or undertaken by Retirement Planners of America-"RPOA"), or any non-investment related content or recommendations, will be profitable or prove correct.

Reliance on Information Provided: RPOA has relied, and will rely, upon information provided by you, and has not, and will not, verify the accuracy of any such information that you have provided. Accordingly, in the event that any such information provided is inaccurate or incomplete, the corresponding results or recommendations will be inaccurate or incomplete. It remains your responsibility to notify RPOA of any changes in the information provided.

Please Note: Projection Limitations. To the extent that any portion of the content reflects projections, no such content should be construed or relied upon as an absolute probability that such a projected result will occur. To the contrary, a different result (positive or negative) can, and most likely will, occur. Materially different results could occur at any specific point in time or over any specific time period. The purpose of the projections is to provide a guideline to help determine which scenario best meets current and/or anticipated financial situations and/or objectives, with the understanding that either is subject to change, in which event the client should immediately notify RPOA so that the above analysis can be repeated.

Please remember that it remains your responsibility to advise RPOA, in writing, if there are any changes in the information provided above, including any change in your personal/financial situation for the purpose of reviewing/revising previous recommendations and/or results, or if you would like to impose, add, or to modify any reasonable restrictions to RPOA's investment advisory services.
