INTERNET SOLUTIONS

Internet Solutions

Are you looking for a company that understands your business? Do you want someone that can offer suggestions, solutions, and technology that will improve your business? Torrid Technologies' diverse Internet experience and focus on the financial services industry will bring your company insight into methods and strategies that will make your company more successful.

In addition to our **WebCalcs®** software, Torrid Technologies is proud to offer targeted **Internet Solutions** to meet your needs. If you want developers that will take the time to understand your company, your business goals, and your needs, call Torrid Technologies for a free consultation. Here are just a few of our current offerings:

- ◆ Web-based Lead Generation & Tracking
- ◆ Marketing Demographics Tracking and Analysis
- ◆ Search Engine Positioning and Analysis
- ◆ Custom Financial Calculators and Tools
- ◆ Financial Planning and Retirement Statement Systems
- ◆ Email Marketing Services & Tools
- ◆ Financial CRM Systems
- ◆ Web Site Improvements—navigation, branding, layout, content
- ◆ Educational Content—seminars, glossaries, articles, databases
- ◆ Internet Client Contact & Meeting Systems

Torrid's Internet, software and database technologies can help your firm reach project goals quickly and within a reasonable budget. Our financial and legal expertise will help you through the compliance maze, as well as deliver accurate solutions. We can help you generate new leads for your business, close actual sales, and improve the effectiveness and reach of your marketing efforts.
